PROFESSIONAL SUMMARY

Software Engineer experienced in JavaScript and Ruby on Rails based programming with a background in Software Quality Assurance. Successfully lead and complete projects with skilled problem solving and time management.

TECHNICAL SKILLS

- | | | |
|------------------------|------------|-----------------|
| • JavaScript | • Node.js | • Ruby on Rails |
| • React & React Native | • Postgres | • SQL |
| • HTML | • CSS | • Adobe Suite |

TECHNICAL PROJECTS

Lyonshare Ventures - lsvtrading.com

Subscription service aimed at bringing stock market fundamental analysis designed for institutions to the retail investor.

- Created JavaScript bots in the Discord server to monitor and display the live price of S&P 500, Nasdaq, and DOW stock market indexes
- Manage backend operations involving the Discord server and subscriptions

Cinebinge - [Git Frontend](#) | [Git Backend](#) | cinebinge-demo.netlify.app

Movie and TV streaming availability app with Tinder-esque swipe functionality.

- Utilized React Navigation to build a Stack Navigator for authorization and a Bottom Tab Navigator to switch between main screens
- Built Swipe feature using React Native Deck Swiper package
- Designed modals that open when tapped which provide more detailed information on the specified movie/show
- Used JSON Web Tokens and localStorage to store encrypted user information client-side
- Obtained relevant Movie/TV data from Guidebox and OMdb APIs

Sports Marquee - [Github](#) | [Demo](#)

A virtual "Stock Ticker" for sports enthusiasts. Displays pre-game betting odds, live scores, and fantasy sports statistics for multiple sports.

- Developed an infinitely scrolling feed of up-to-date sports data with React.js frontend
- Utilized Ruby on Rails as an API
- Styled using custom HTML and CSS to replicate a physical stock ticker

Hungry Hungry Jeffs - [Github](#) | [Live Game Demo](#)

Game based on Hungry Hungry Hippos featuring my classmate Jeff alongside famous people named Jeff.

- Utilized Javascript and HTML to develop a game as part of a pair programming challenge

EXPERIENCE
