SOFTWARE ENGINEER

Experienced in Ruby on Rails and JavaScript based programming with a background in Software Quality Assurance. Possess strong problem solving and time management skills that provide a company with an efficient and reliable asset. As a former college athlete and senior captain, I gained the knowledge of how to work within a team and also how to lead.

TECHNICAL SKILLS

JavaScript, Ruby, Rails, React.js, React Native, Redux, SQL, CSS, HTML.

TECHNICAL PROJECTS

Cinebinge - [Git Frontend](#) | [Git Backend](#) | [Demo](#)
Movie and TV streaming availability app with Tinder-esque swipe functionality
- Utilized React Navigation to build a Stack Navigator for authorization and a Bottom Tab Navigator to switch between main screens
- Built the Swipe feature using the React Native Deck Swiper package
- Designed modals that open when tapped which provide more detailed information on the specified movie/show
- Used JSON Web Tokens and localStorage to store encrypted user information client-side.
- Obtained relevant Movie/TV data from Guidebox and OMdb APIs

Sports Marquee - [Github](#) | [Demo](#)
A virtual "Stock Ticker" for sports enthusiasts. Displays pre-game betting odds, live scores, and fantasy sports statistics for multiple sports.
- Developed an infinitely scrolling feed of up-to-date sports data with React.js
- Styled using custom HTML and CSS to replicate a physical stock ticker

Hungry Hungry Jeffs - [Github](#) | [Demo](#)
JavaScript/HTML game based on Hungry Hungry Hippos featuring my classmate Jeff alongside famous people named Jeff.
- Pair-programming project.
- Designed most of the front-end styling
- Built an image carousel showcasing the different Jeffs in the game
- Implemented background music to replicate a retro arcade game

EXPERIENCE

Quality Assurance Analyst, **Arteric**, Summit, NJ   10/2018 - 04/2019
- Primary QA resource for the complete redesign of a global oral care company's e-commerce website
- Maintained and executed test plans for multiple global pharmaceutical companies

Quality Assurance Analyst, **SportsRecruits**, Brooklyn, NY   12/2017 - 08/2018
- Point person between the Software Development team and the customer facing teams
- Manually tested major new feature releases on all major browsers and operating systems
- Prioritized inbound bug reports and maintained a backlog with issues to be solved in upcoming sprints

EDUCATION

Flatiron School   09/2019 - 01/2020
Full Stack Web Development, Ruby on Rails and JavaScript program

Quinnipiac University, Hamden, CT   08/2012 - 05/2016
Bachelor of Science, Marketing
